## Belts

### Operator Belt

The Operator COBRA® IDR 1.75" Rigger Belt is a low-profile shooter's belt designed to work with both MOLLE and belt-mounted gear. This two-belt system is overbuilt, like all HSGI® gear, to outlast the competition.

- Built with two layers of military-grade Type 13 nylon webbing
- Sewn together with five rows of lock-stitched, bonded 138 nylon thread
- Proprietary construction process provides additional rigidity and stiffness
- Features additional layer of 1.5" webbing, triple backtacked every 1.5" to create industry-standard columns of MOLLE for use with MOLLE pouches and holsters
- Double-needle binding along upper and lower edges of 1.5" webbing for added durability
- Includes your choice of HSGI® Inner Belt or Micro Grip Belt Panel to mate with the Operator's interior hook Velcro®
- Two-belt setup enables the easy donning and removal of belt
- Features patented COBRA® integrated D-ring buckle with matte black finish

HSGI's® rigger belts are NOT labeled or certified for climbing or use as Life Saving Equipment. HSGI® will not be held responsible for any injuries or death for the misuse of any of our products.
